

reindeer – katie bee

beautiful reindeer
are on my mind
not only on Christmas
I see them wading through the snow

adorable reindeer
brave the storm and the cold
they've got a winter coat
to keep them warm, I've been told

I wish I was Santa so I could hear what they say
enviable Santa is around them every day

let me fly with you Santa, is there a place in your sleigh
I'm begging you Santa take me with you far away

beautiful reindeer

the top of their horns spreads out like the palm of my hands
like Caesar said they're like branches of a tree
