

not only a city  
music and lyrics by katie bee

I am sitting here  
and I can see  
the lights of a city  
that means home to me

there might be other places  
with beauty and grace  
but I'm sentimental  
don't even have a suitcase

this is not only a city  
this is not only a town  
these are not only my memories

this is not only a city  
this is not only a town  
these are not only my memories

the sun is going down  
behind St. Peter's tower  
I'll meet you there  
maybe in an hour

we will have drink  
in a piano bar  
where I once dreamed  
to become a star

this is not only a city  
this is not only a town  
these are not only my memories

this is not only a city  
this is not only a town  
these are not only my memories

these are the streets  
the buildings and rivers  
not only a city

this is the lake  
the churches and sights  
not only a city

this is not only a city  
this is not only a town  
these are not only my memories

this is not only a city  
this is not only a town  
these are not only my memories

these are the streets  
the buildings and rivers  
not only a city

this is the lake  
the churches and sights  
not only a city

- sax und vocal battle -

remember all the years  
we've spent here together  
you're throwing them away  
can there be any better?

it is our goodbye  
you're going away  
Zurich's my love  
that's why I'll stay...
